FIELD NOTES

OF

THE DEPENDENT RESURVEY AND SURVEY OF THE SOUTH BOUNDARY

(FOURTH STANDARD PARALLEL SOUTH),

IN

TOWNSHIP 20 SOUTH, RANGE 11 WEST,

THE DEPENDENT RESURVEY OF THE SOUTH BOUNDARY OF

TOWNSHIP 19 SOUTH, RANGE 11 WEST,

AND

THE DEPENDENT RESURVEY AND SURVEY OF THE EAST AND WEST BOUNDARIES,

AND SUBDIVISIONAL LINES,

IN

TOWNSHIP 20 SOUTH, RANGE 11 WEST,

OF THE SALT LAKE MERIDIAN
IN THE STATE OF UTAH

EXECUTED BY

Calvert C. Norton, Survey Technician

Under the Supervision of

Daniel T. Gillins, Cadastral Surveyor

Under Special Instructions dated and approved *July 31, 2009*, and
Supplemental Special Instructions dated and approved *January 27, 2010*,
which provided for the surveys included under Group Number *1115*, and
Assignment Instructions dated *July 31, 2009*.

Survey Commenced, *August 11, 2009*

Survey Completed, *February 12, 2010*

TOWNSHIP 20 SOUTH, RANGE 11 WEST, SALT LAKE MERIDIAN, UTAH

The following field notes are those of the dependent resurvey and survey of the south boundary (Fourth Standard Parallel South), in Township 20 South, Range 11 West; the dependent resurvey of the south boundary of Township 19 South, Range 11 West; and the dependent resurvey and survey of the east and west boundaries, and subdivisional lines, in Township 20 South, Range 11 West, Salt Lake Meridian, Utah.

TOWNSHIP 20 SOUTH, RANGE 11 WEST, SALT LAKE MERIDIAN, UTAH

The survey commenced in the summer of 2009, executed by Calvert C. Norton, Survey Technician, under the supervision of Daniel T. Gillins, Cadastral Surveyor, in accordance with the specification set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 1115, dated July 31, 2009. However, due to high amounts of rainfall in 2009, a portion of the Sevier Lake bed was so wet and muddy that corners could not be monumented prior to winter. In order to expedite field survey time, Trent J. Keenan, a principal of Diamondback Land Surveying of Las Vegas, Nevada (Utah Registered Land Surveyor No. 5790532) was contracted in 2010 to complete the monumentation in the unsurveyed portion of the Sevier Lake bed, under the supervision of Daniel T. Gillins. The establishment and monumentation of corners in the Sevier Lake bed in 2010 was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 2009, and the Supplemental Special Instructions for Group No. 1115, dated January 27, 2010.

The directions of the lines were determined by references to true meridians, established by Global Positioning System (GPS) utilizing Real-Time Kinematic (RTK) techniques throughout the survey. The positional accuracy of this survey complies with the ***Standards and Guidelines for Cadastral Surveys Using Global Positioning System Methods***, dated May 9, 2001, Version 1.0. Trimble model 5800 GPS receivers were used for field collection. Cadastral Automated Plat Drafting (CAPD) software was the primary software utilized for project calculations.

Preliminary to the resurvey, the lines of the prior surveys were retraced and a search was made for all corners and other calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data was thoroughly verified and only the true line field notes are given herein.

Geodetic control was derived from GPS static observations, post processed by National Geodetic Survey, Online Positioning User Service (OPUS), utilizing Continuously Operating Reference Stations (CORS): **EGAN_BRGN_NV1996 CORS ARP, DELTAMUNI_UT2004 CORS ARP, and MARYSVALE_UT2006 CORS ARP.**

The geographic position of the southeast township corner of T. 20 S., R. 11 W., as determined by direct RTK methods from the National Geodetic Survey OPUS solution, is as follows:

Latitude: 39°01'15.158" N., Longitude: 113°01'47.782" W.,
N.A.D. 1983, Network Accuracy = 0.2 meter at 95% confidence

The geographic position of the corner of Townships 19 and 20 South, Ranges 11 and 12 West, as determined by direct RTK methods from the National Geodetic Survey OPUS solution, is as follows:

Latitude: 39°06'31.928" N., Longitude: 113°08'28.826" W.,
N.A.D. 1983, Network Accuracy = 0.2 meter at 95% confidence

DEPENDENT RESURVEY OF THE SOUTH BOUNDARY,
 (FOURTH STANDARD PARALLEL SOUTH),
 TOWNSHIP 20 SOUTH RANGE 11 WEST, SALT LAKE MERIDIAN, UTAH

CHAINS

Dependent Resurvey of a Portion of the South Boundary,
 (Fourth Standard Parallel South),
 T. 20 S., R. 11 W., Salt Lake Meridian, Utah

Reestablishment of the Survey Executed
 by V. E. Lane, et al. in 1959

Beginning at the point for the southeast township corner of T. 20 S., R. 11 W., determined by compass rule adjustment of the 1959 record bearings and distances between the nearest existing corners which are the standard 1/4 section corner of section 31 only, on the south boundary (Fourth Standard Parallel South), of T. 20 S., R. 10 W., and the corner of sections 1 and 12 only, on the east boundary of T. 21 S., R. 11 W.; there is no remaining evidence of the original corner.

Set a stainless steel post, 30 inches long, 2 1/2 inches diameter, 27 inches in the ground, with brass cap marked:

T20S
 R11W
S36 |
 T21S R10W
 S6
 2009

Bury a magnet beneath the stainless steel post.

Set a steel fence post alongside the stainless steel post.

Corner falls in muddy lake bed.

From this point, the meander corner of sections 4 and 33, on the south boundary (Fourth Standard Parallel South) of T. 20 S., R. 12 W., bears **N. 89°59.8' W., 787.387 chains** distance, monumented with an aluminum post as described in the official record of the concurrent dependent resurvey of the south boundary of T. 20 S., R. 12 W., executed under this same group.

N. 89°59.8' W., on the south boundary of section 36.

16.740 Point for the closing township corner of Township 21 South, Ranges 10 and 11 West, determined at record distance on the Fourth Standard Parallel South; there is no remaining evidence of the original corner.

Set a stainless steel post, 30 inches long, 2 1/2 inches diameter, 28 inches in the ground, with brass cap marked:

Dependent Resurvey of the South Boundary,
T. 19 S., R. 11 W., Salt Lake Meridian, Utah

Reestablishment of the Survey Executed by J. Gorlinski in 1880,
and the Resurveys Executed by A. J. Stewart, Jr., in 1885, and
V. E. Lane, et al. in 1959

Beginning at the corner of Township 19 South, Ranges 10 and 11 West, monumented with an iron post as described in the official record of the concurrent dependent resurvey of the north boundary of T. 20 S., R. 10 W., executed under this same group.

S. 89°06.9' W., on the south boundary of section 36.

- 2.794 The closing township corner of Township 20 South, Ranges 10 and 11 West, monumented with an iron post, 2 1/2 inches diameter, firmly set, projecting 5 inches above the ground, with brass cap marked as described in the official record of the 1959 survey.

Set a steel fence post alongside the iron post.

- 40.131 The 1/4 section corner of section 36 only, monumented with an iron post, 2 1/2 inches diameter, firmly set, projecting 7 inches above an embedded collar of stone, 1 ft. base, with brass cap marked as described in the official record of the 1959 resurvey.

Set a steel fence post alongside the iron post.

S. 89°08.7' W., beginning new measurement.

- 2.661 True point for the 1/4 section corner of section 1 only, T. 20 S., R. 11 W., determined at proportionate distance, falls in a wash, course southerly; where it is impracticable to establish a permanent monument.
- 2.761 The witness corner for the 1/4 section corner of section 1 only, T. 20 S., R. 11 W., monumented with an iron post, 2 1/2 inches diameter, loosely set and leaning southwest, projecting 20 inches above the ground, with rusted base and a brass cap marked as described in the official record of the 1959 survey.

While attempting to plumb the iron post, the base broke.

CERTIFICATE OF SURVEY

We, *Calvert C. Norton, Survey Technician*, under the supervision of *Daniel T. Gillins, Cadastral Surveyor*, HEREBY CERTIFY upon honor, that in pursuance of Special Instructions bearing the date of the *31st day of July, 2009*, and the Supplemental Special Instructions bearing the date of *27th day of January, 2010*, we have *dependently resurveyed and surveyed the south boundary (Fourth Standard Parallel South), in Township 20 South, Range 11 West; dependently resurveyed the south boundary of Township 19 South, Range 11 West; and dependently resurveyed and surveyed the east and west boundaries, and subdivisional lines, in Township 20 South, Range 11 West*, of the *Salt Lake Meridian*, in the State of *Utah*, which are represented in the foregoing field notes as having been executed by us and under our direction; and that said survey has been made in strict conformity with said Special Instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.
